

Christopher Tsai  
CS 349 HW0 Free Response

1. How many total points of extra credit are available? [None at the moment, but instructor will decide if he wants to include extra credit assignments later on.](#)
2. Where do you submit the free-response answers and in what file format must you submit it? [Canvas, and .pdf.](#)
3. How is your code to be submitted? [Via GitHub Classroom submissions, push to GitHub server.](#)
4. Will we grade something submitted late (even if it is just 1 minute late) or submitted in the wrong place? [Not past the grace period of 2 am cst.](#)
5. If you are not sure you'll be done with an assignment by the deadline, what is a good approach to ensure you'll get points for the work you did complete prior to the deadline? [Push whatever you have to GitHub \(even if it is incomplete\) and push again if you make more progress.](#)
6. Are you required to do your own coding and to answer your own questions individually on the homework? [Yes.](#)
7. Where should you go to find class announcements and post questions? [Campuswire.](#)
8. Is attendance graded? [No, but the after-class quizzes are given as a form of attendance.](#)
